

MAERKI BAUMANN & CO. AG

PRIVATBANK

E-banking setup

When setting up e-banking, your access is initialised with a temporary password. Upon completion of the activation process, this password will be replaced by a personal, secure password of your choice. The CrontoSign Swiss app is used to securely authorise your access.

To begin setting up e-banking, please ensure that you have the following to hand:

- Your e-banking contract number
- The temporary one-time password (provided by Maerki Baumann)
- The letter with the initial Cronto QR code (also provided by Maerki Baumann)
- A smartphone or tablet to install the CrontoSign Swiss app and scan the mosaic.
- Another device for e-banking activation (e.g. PC, notebook or tablet)

Installing the CrontoSign Swiss app

To install the CrontoSign Swiss app on your smartphone, you have the following options:

- You can scan the appropriate QR code for your operating system (Apple iOS or Android). This will take you directly to the relevant app store where you can download the app.

Apple App Store
(iOS)

Google Play Store
(Android)

- Alternatively, you can also search for and install the CrontoSign Swiss app directly in your device's app store.

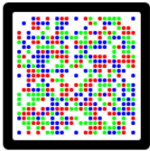

E-banking activation

1. To activate e-banking, please open the following login page in your Internet browser on your device:
<https://ebanking.maerki-baumann.ch>
2. There, please enter your contract number and the initial password you received from Maerki Baumann.

3. After logging in, you will be taken to the activation page.
4. You will now need your CrontoSign Swiss app to scan the mosaic on your activation letter.
5. The CrontoSign Swiss app will then generate a code, which you should enter in the "Code" field in e-banking.

6. Next, scan the mosaic (the colourful graphic with the black frame) displayed on your screen in e-banking using the CrontoSign Swiss app on your smartphone or tablet.

Please scan the cryptogram and enter the code displayed on your Cronto app or device.

DONE

8. Assign a freely chosen device name (e.g. my iPhone) to your smartphone. This will help you identify the device more easily later on.
9. You will then be prompted to replace the password initially set by Maerki Baumann with a new password of your choice. Please observe the password rules when creating your new password and, for your own security, do not use a password that you are already using elsewhere.
10. Once you have chosen a new password, please confirm it by clicking on “Change password”.
11. The system will now automatically log you into your e-banking. Your access setup is now successfully completed.

Please keep the letter with the initial activation code in a safe place to which only you have access. You will need it if you want to set up your account on a new device.

What do you need to do if your smartphone, tablet or device is lost or stolen?

If your smartphone or tablet is lost or stolen, please contact your client advisor immediately. We will block the devices in question and thus ensure that it is no longer possible to use them to log into your e-banking. We will also be happy to assist you with the next steps.

Do you no longer have access to the smartphone or tablet you registered with e-banking?

If you install the CrontoSign Swiss app on a new smartphone or tablet and you no longer have access to your old, already registered smartphone or tablet, you must first contact us by phone for security reasons. Please contact your client advisor to have your old device removed and order a new activation letter if required.
